**IBERICOS
CANNED
FOODS, S.A.**

Our Policy

- **IBERICOS CANNED FOODS, S.A.** was established in 1978 as import-export agency, always offering safe and high quality products to our customers; by our close to 40 years old experience and with a qualified staff, without any additional cost for our customers.
- These services are those that can offer other agencies, but the dedicated years to the export we understood that our customers need an independent company representing customer's interest and control each and every one of the steps that intervene the process of export the product, and for it our company, by means of each one of their specialized departments, makes a following and control of each one of the critical points of the process, and to avoid deviations of a correct service to our appreciated customer.

www.icafsa.com

Sales Department

- The sales department keeps informed our customers about situation of each product season, as well of availability and offers of different products. We will contract the product in the best market conditions with the agreement of our customer.

Quality Assurance Department

- We audit suppliers and we control the critical points of packaging process.
- We select the packing dates according with customers specifications or according with our quality specifications if customer hasn't quality specifications.
- We control labeling and loading of the product to be according with customer requirement and to avoid product damage during transportation.

Logistic Department

- **We get the lowest transportation prices in good conditions and we work to avoid shipment delays.**
- **We keep informed to our customer of shipment status and we watch over correct documents and those documents arrive on time to avoid extra cost at time of reception by the customer.**

Our Suppliers

The finish product we works are produced by our suppliers located in several countries:

- **Spain**
- **Peru**
- **Chile**

However, we always represent to our customer, not the suppliers.
